

Pinellas County Sheriff's Office

"Leading The Way For A Safer Pinellas"

HEALTH SERVICES MONITOR

JOB CODE: 27300	PAY GRADE: 18	PAY RANGE: \$53,621 - \$85,795
------------------------	----------------------	---------------------------------------

GENERAL DESCRIPTION

Under the general direction of the Assistant Director of Nursing or designee, the main focus of this position is project management, compliance, technical assistance, and monitoring of healthcare services through various continuous quality improvement and cost containment programs. The member in this position provides technical assistance, consultation, and interpretation of standards and program policy to healthcare staff, detention staff, vendors, and to the Sheriff's management team. Work involves monitoring the health services program to ensure that policies, procedures and practice of the medical facility are in strict compliance with applicable federal, state and county laws, rules and regulations, as well as established rules, policies and orders of the Sheriff's Office and the guidelines established by correctional healthcare accrediting authorities. Work entails independent judgment and actions utilizing knowledge of health services within the correctional healthcare environment. Work is reviewed through observation and results obtained.

SUPERVISES OTHERS: No

ESSENTIAL FUNCTIONS AND RESPONSIBILITIES

- Monitors the delivery of health services by reviewing medical records, unusual incident reports, statistical data, health care audits, and other available records to assure timeliness of care and compliance with community, regulatory and accreditation standards to mitigate risk; report discrepancies to staff and make recommendations for improvement
- Manages and/or contributes to multiple major projects under the discipline of defined business processes; plans and coordinates requirements, tasks, work assignments, resources and critical milestones, focusing on priority tasks; plans and recommends new systems to improve operations
- Performs project management for implementation and ongoing SME support of the agency's electronic medical record/electronic medication administration record system; develops data models that describe processes and methodologies; creates UAT testing scenarios, assignments and performance reports; performs root cause analysis to identify problems and propose solutions; creates templates, forms, and reports for the end user
- Develops Request for Proposal (RFP), Project Charter, Scope of Work and other documents of critical content that are used to further agency agenda with vendor agencies
